**PRESIDENT'S MESSAGE.**

**TRUSTS MUST BE HANDLED FOR PUBLIC BENEFIT.**

A New Message to Back Up the Monroe Doctrine—Trusts on American Soil Must Be Handled—Presidential Message.

Washington, Dec. 3.—Among the important addresses of President Roosevelt in his message to the two Houses of Congress at the beginning of the second session of the 57th Congress are the following:—  
We still continue in a period of tabular paroxysm.  
As fundamental laws of civilization is the inevitability of property, but this is a source consistent with the right of society to regulate the exercise of the artificial powers which it confers upon the owners of property, under the name of corporations. However the latter conditions are such that a needed change cannot with advantage be made by a mere application of the reciprocity law, as it can be made only by a sweeping of action on a given reform.

The Congress has wisely provided that we should build at once an industrial canal, if possible, at Panama. At latter-day reports that we can undoubtedly acquire good title from the French Panama Canal Company.

I hope soon to submit to the Congress a reciprocity treaty with Cuba, a reciprocity treaty with the United States, which will be done before the Senate for ratification.

It is my duty to report to the Congress the results of my mission to the Government of the State of St. Louis. I have the honor to remain, your obedient servant,

President Roosevelt refers to the trusts in his message to the Congress at the beginning of the second session of the 57th Congress. He says:—  
There should be no halt in the work of building up the country, providing for the future of the people, and the maintenance of the Philippine, recent naval maneuvers, which demand the possession of a British navy. The Monroe doctrine should be treated as the foundation of American foreign policy, but it would be wrong to say that it is the only one. It is the only one that is not a product of war. It is the only one that is not a product of war.

**Back of the Cough**

There's more to a cough than the tickling sensation in the throat. There's a cold behind that and a weak spot to be strengthened.

Cough mixtures get as far as the tickling sensation in the throat; that is where their work stops. They may relieve the cough, but they do not cure the cold, and certainly will not build up the system. The action is therefore merely local and of necessity very limited.

Scott's Emulsion does not stop at the throat. It goes beyond that. It not only cures the cough, but it cures the cold which is back of the cough. It searches out the real cause of the trouble and corrects the wasting and weakening condition.

In its passage through the system it gives strength to the work on our tissues. It feeds the blood corpuscles and tones up the body. There is nothing better than Scott's Emulsion to build up a run down system after a cold.

We will send a sample free to any of our agents.

BRITAIN DEMANDS SATISFACTION FROM VENEZUELA.

The Official Announcement Made in London Yesterday—A Strong Hint Given on the Way.

London, Dec. 4.—It is officially announced here that Great Britain and Germany are taking naval measures to secure satisfaction from Venezuela, and that "for this purpose German warships have already assembled off the coast of Venezuela, and those of Great Britain will shortly be there."

No attempt is made to reconcile Great Britain's attitude with the news from Berlin that President Castro has been asked to demand satisfaction from Venezuela. The reason for the aggressive attitude is declared to be that no overtures have yet been received from Venezuela in answer to the country's obligations by ordinary means.

The Associated Press correspondent in a dispatch to state that Venezuela offered the payment on a unified loan of over \$100,000, interest yearly guaranteed by the customs, with the establishment of a European bank at Caracas to superintend the collection, if such a method is now followed the Venezuelan government maintains that all claims are eventually to meet, whereas it alleges that the temporary nature of the customs would not disturb the commerce of the country and possibly render it impossible to satisfy the European bankers, and might precipitate another revolution.

London, Dec. 4.—The British second-class cruiser "Dorsetshire" sailed for Venezuela yesterday, and the second-class cruiser "Charybdis" sailed for the same destination.

### TIMELY TOPICS.

Much has been written and much has been said during the past few years upon the subject of establishing manufacturing industries in this country. Some new industries have been established, all of which have not resulted in as great success as desired. There is every prospect at present of the Belling this being again put in operation, and a proposition is now being made to locate and work a Cannel Factory in this city. Our new, successful, as such an industry existing at this point seems to be a fortunate circumstance. Considering the growing market for cement (there is no reason why such an industry should not prove profitable to those who have in the enterprise.

Another industry is now proposed, that of a Canning House for the manufacture and curing of beets, beans, etc., for the English market. This is an industry which should command little, not only to the business men of this city, but to every farmer in Idaho, and adjoining countries. The proposition is well calculated to establish a company with a capital of \$250,000, and would employ 100,000 men annually. Mr. Hunter is now, in the City promoting the enterprise, with the assurance of every prospect of success.

The attention of the members of the County Council should be called to this enterprise, as it is one in which their constituents are directly and pecuniarily interested. There is not another group of countries in Canada in which a greater number of people, of English, Scotch, Irish, French, German, etc., are married every year, than that which composes the counties of Hamilton, Prince Edward, Lennox and Addington, Durham and Peterborough. It is needless, therefore, to point out the great advantages to those counties which he has a market at his own door for the sale of all the goods he could make.

Let us hope that our citizens, aided by

the ferment of the surrounding country, will try to hold this enterprise, and make it a success.

Judging by the tone he is getting in a certain quarter, Mayor Graham is about the most popular man in the city.

Our much-contested controversy, about Bateycom, seems to be, to use an old-fashioned slang phrase, "slightly disfigured but still in the line."

The election was fairly a surprise. All of them.

The prohibition people don't mind that, but the worst of it, they say, is that they count the election with all the people who keep on getting out of something else.

It was the speech of the people which started the hopes of the "young."

"Well, sir," says the "Honey Loane" some philosophers, "it is a deep thing." If the prohibitionists had polled a hundred thousand more votes they'd have won."

# FINE Clothing for Men Suits and Overcoats

Perhaps you are one of the men who know the high character of our Clothing, but if you don't you will naturally be surprised at it, because it's that and that alone which is bringing to this store men who have been prejudiced against ready-to-wear clothes by the ordinary sorts of other stores.

You will find in Quick & Robertson's Clothing a character which appeals to you though you are a tailor's patron.

They possess every trait of the best, trade-to-measure clothes because they are made as thoroughly.

Correct in style, smart in appearance and perfect in fit, they are equal of the best custom made. Take as examples

Those handsome Overcoats—the desirable long, loose, broad-shouldered Coats of Cheviote, Thibets and Fries, in Blacks, Oxfords and Mixtures at \$6.50 to \$15.

Or the fancy Cheviote, Cashmere and Worsted, Black Thibet and Cheviote and Black unadorned, single and double-breasted Suits, which are priced \$6 to \$15.

We have an almost unlimited variety of the new fabrics in both Suits and Overcoats—a third of which you will not find elsewhere—perhaps that will surprise you also—if it doesn't Quick & Robertson's High Quality and Fair Prices will, and inestagregably, too.

### EX-PRESIDENT RESPONSIBLE

Charles Held to Span for Venezuela. London, Dec. 5.—The joint naval demonstration of the British and German fleets against Venezuela has been substituted for coercive measures by a single power. The subject of this deal arrangement is to prevent the German Government from the use of force and a temporary restriction of the president's financial supplies as a result of the claims of both powers, will be taken up and settled.

There are rumors in diplomatic circles that the British Government is planning to force Venezuela to accept a settlement by a single power, and that the German Government will be forced to accept a settlement by a single power.

# Here are the Facts

"You hear about the 'active principle' of cod liver oil and are told, 'Latin in certain wines, cordials and extracts of cod liver oil this principle is combined with the objectional' features left out. Nothing to it. The only active principle of cod liver oil is the whole oil."

For years it has been known that in cod liver oil are found, in almost invisible form, valuable "medicinal agents" that maintain their value only so long as they are kept in perfect combination, *in the whole oil*. The properties of life and soda which are combined with it are valuable tones, increasing the appetite, strengthening the nerves and restoring vitality in the whole system.

The most effective way of taking cod liver oil, as well as the easiest and safest, is in the form of Scott's Emulsion. Avoid these so-called "wines, cordials and extracts" of cod liver oil that are prepared for the taste only, contain none of the value of cod liver oil which are dosed with a large percentage of alcohol. Scott's Emulsion has been the reliable cod liver oil preparation for over a quarter of a century.

We'll send you a sample free upon request.

## JOHN BARLEYCORN WON IN THIS CITY

Light Vote Polled, and Antis Have a Majority of Twenty-five

Majority in Riding of West Hastings Largely in Favor of the Act

As was anticipated by even those who took an active part in yesterday's election, the vote polled was light, easily, fifteen of a total of about 1800 qualified voters. However, while light, it was heavier than in the previous election, when a majority against prohibition yesterday was 55, whereas in the election of 1901 it was 25. In the election of March, 1901, for a representation of the riding of West Hastings, 1801 votes were polled in this city, and in the present year, for the same riding, the total vote polled in this city was 1515. It was upon the latter date that the vote of yesterday was taken, so that over 300 electors had been added to the list, notwithstanding the fact that the majority of the vote was in favor of the act.

CATTLE EMBARGO STANDS

NO SHIPMENTS FROM PORTLAND OR BOSTON.

Authoritative Announcements from London and Ottawa—The Mexican Contingent to Spread Rapidly.

London, December 5.—The officials of the Department of Agriculture had no choice in enforcing the prohibition of the importation of cattle from Portland where, it was said, the Mexican contingent to spread rapidly. They were no complacent at the Canadian High Commissioner's order against the prohibition of shipments of Canadian cattle via Toronto. Veterinary experts here asserted that the foot and mouth disease is contagious that sometimes themselves have carried the infection from one country or English towns to another. Ottawa, Dec. 5.—On hearing of the report telegraphed to the Canadian press from Boston that the British Board of Agriculture were permitting the entry into British ports of cattle from Boston and Portland, Mass. Sir John D. A. Murray, called to Lord Strathcona a query as to whether this was true. The High Commissioner replied that the report was entirely incorrect. Although the embargo on the shipment of cattle from Boston will stand.

Boston, Dec. 5.—Acting Secretary of the Board of Agriculture, Mr. J. H. Smith, said the situation here is very serious, and that the cattle from Portland, Mass., are known to be affected. New cases have been reported from the same source. Dr. J. H. Smith, however, believes the situation can be easily handled by slaughter and disinfection.

RIOT AT MERRITTON.

THE HORSE TURNED ON G. RAILWAY EMPLOYEES.

They Tore Up a Bridge on Main Street—Firemen's Hose Out, but They Finally Drove the Railwaymen Away—Traffic Stopped.

St. Catherine, Dec. 5.—Quite a riot occurred at Merriton yesterday. The G. R. planned to erect a new bridge over its tracks on the main street of the village, and had the new structure already in place. The company tore up a portion of the bridge to make room for the new frame. This proceeding was not according to the expectations of the Merriton authorities. The village men were told to demolish the bridge. The company refused. The rioting began when the company refused to demolish the bridge. A stream of water was thrown at the company's men, and the rioting continued. The rioting was a riot. The rioting was a riot. The rioting was a riot.

In the meantime street life is total. The rioting was a riot. The rioting was a riot. The rioting was a riot.

Two men have already been serving a term in jail for fraud connected with the election in the city of Montreal. The trial is now in progress, and the different charges were brought before the court in the report of the proceedings.

Mr. Brunet, M. P., who was in court, charged considerably as the different charges were brought out. It must be borne in mind that the law relating to the return of officers, who were charged with the duty of returning officers, who were charged with the duty of returning officers.

# CHRISTMAS BELLS WILL SOON BE RINGING

Our complete line of holiday goods for gentlemen is now on display, and we have extra salesmen to assist our customers in making their selections.

Our showing of neckwear, suspenders, mufflers, handkerchiefs, umbrellas, house coats and gloves, we believe, the best in the City and represents the very newest ideas in haberdashery. We are doing a large holiday business, simply because at this time, as at other times during the year we adhere strictly to popular prices. Take for instance our line of neckwear. We challenge any competition to produce anything that will excel them. We are disposed, if anything, to sell goods cheaper at this holiday time than at any other, for with us it closes the most successful season's business we have ever done and we feel like doing our share towards making the Christmas season for our customers as pleasant as we can.

We shall be pleased to serve you at this season and you need not look any further than RIGHT HERE for the best in the market.

## TIMELY TOPICS.

Good reminder. How many new faces do you think there will be in the Council next year?

Commensal guests can now let the guests alone again.

Amazons Everywhere?—No, we don't think the desire for glory in the present war is as great as it was last year.

The world of '02 is, if you will allow me to say, the old dabbler, will again show up in all his weird doings.

They are often in a line in the anti-prohibition circle in the field at the next municipal election. Wouldn't that stagger you?

It is rumored that Jim Cummins is preparing a new stock of stores, ready for the next coming deluge.

There is no truth in the report that a lady had her feet frozen in the subway here a few nights past.

Does anybody know?—No, going to run the Library next year? What's going to become of it, my boy?

The question has been asked: Where, of the three prospective legislators about us here, are the companies going to get up to run the first? Easiest thing in the world. Just let it be known that Belleville can afford equipment to her former ones and the old boys will be filling over each other in their haste to get back to the greivous city in Canada.

Virginia has had 194 revolutions in 76 years, an average of one and a half per year. Want to be the present little unpunctuated to a pretty little piece like that?

Ald. Smith says the new time the Michigan goes to Detroit he is going to wear kilt and take Tiger McDaniel along to boost the town. Just then they can see the rest of the boys or anything else in the city.

A correspondent writes: "Where are the Cornet Works to be erected, and what do the promoters really want?"

To the first query the only answer we can give is "We don't know." Second, however, we have learned upon the subject has been given to our readers. Just as much as a proposition is laid before the Council by the promoters, or an offer is made by the Council, our readers will get the information and the fact of the Council's decision. As the meeting there is no proposition to consider or discuss.

## THE OAKVILLE FAULT

A MEETING OF CREDITORS TO BE  
CALLED THIS WEEK

Toronto, Dec. 22.—It will probably be the middle of the week before Mr. E. R. C. Clarkson, the assignee, will be in a position to convene a meeting of the creditors of C. W. Anderson & Son, the private bankers of Oakville, whose recent assignment caused much surprise in the community among which the bank has been established for the past fifteen years. Mr. Clarkson stated last night that he could not yet tell what the liabilities were. It is the general impression, however, that they will not exceed the figures at first named, to wit, \$200,000. It was stated by Mr. Clarkson that he believed the assets of the depositors amounted to about \$117,000, although a number of the principal depositors, who held an interest in the bank, were absent on Friday night, owing of the opinion that they might total as much as \$245,000.

[illegible]

None of the largest depositors, it is said, withdrew their accounts during the recent run on the bank. The funds of the Oakville School Board were on deposit in the bank, and steps will be taken by the trustees to pay some \$8000 in salaries to teachers, which were due on Saturday. The trustees rather prematurely congratulated themselves as

the time of the failure of the private bank of Andrew & Howarth that they had no funds there, as had the Town of Oakville.

The action of the Bank of Hamilton is closing down on Anderson & Son, and thus precipitating the assignment, is variously interpreted in Oakville. The

Andersons claim that when the run commenced the bank promised to see them through, so that they did not look, as they might have done for outside aid.

The general sympathy for the Andersons vents itself in condemning the action of the Bank of Hamilton, whose claim is said to be about \$200,000.

Mr. E. B. Anderson, one of the sons,

After known as Dett, was in Palmerston when the assignment took place. He was engaged in settling up the affairs of the private bank of Anderson & Scott

On Friday night a deepatch was sent him, signed by a number of friends in Oakville, in which the situation was ex-

ained, and he was urged to be in Oakville as soon as he was well enough. What dividend the creditors are likely to secure is, of course, a matter of mere

speculation as yet. It is pointed out, however, that Mr. C. W. Anderson has very large blocks of property in Oakville, Toronto, Stratford, Trafalgar

Township and in a number of other places.

NOT A DEADENED STATEMENT.

Mr. Campbell's Reference Was to the

Owen Sound, Dec. 22.—In Friday's despatch with reference to the North Sea convention a mistake occurs. Mr.

Campbell made a statement which Mr. McKay held in his hand while speaking. Mr. Campbell is an honest and intelli-

section, told him that he never completely recovered from the effects of the rugged liquor he got that night. The portion of Mr. Campbell's statement

which is quoted verbatim refers, of course, to himself, and is correct.
